

Jingzhi Belt — Overall Concept and Spatial Axis

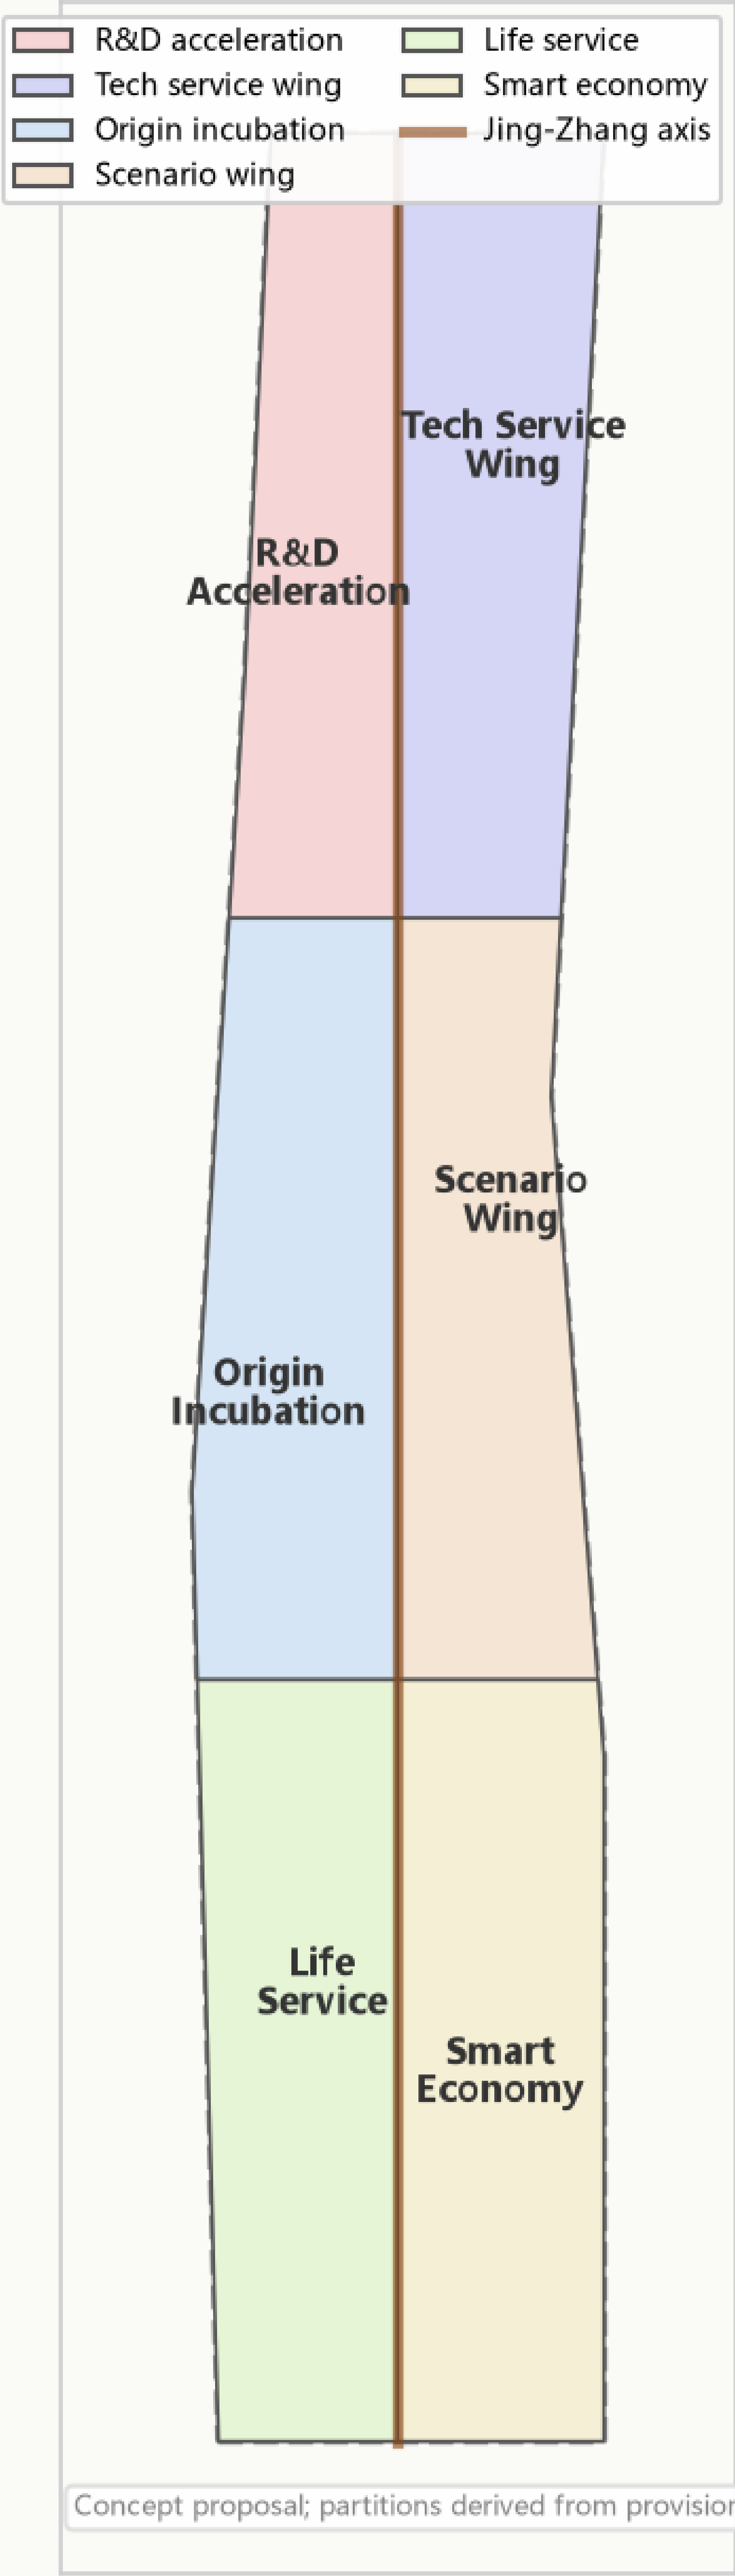

One Belt, Three Cores, Multi-Node Scenarios, Blue-Green Slow-Mobility Ring

Six coordinated districts: R&D, tech-service wing, origin incubation, scenario wing, life service, smart economy

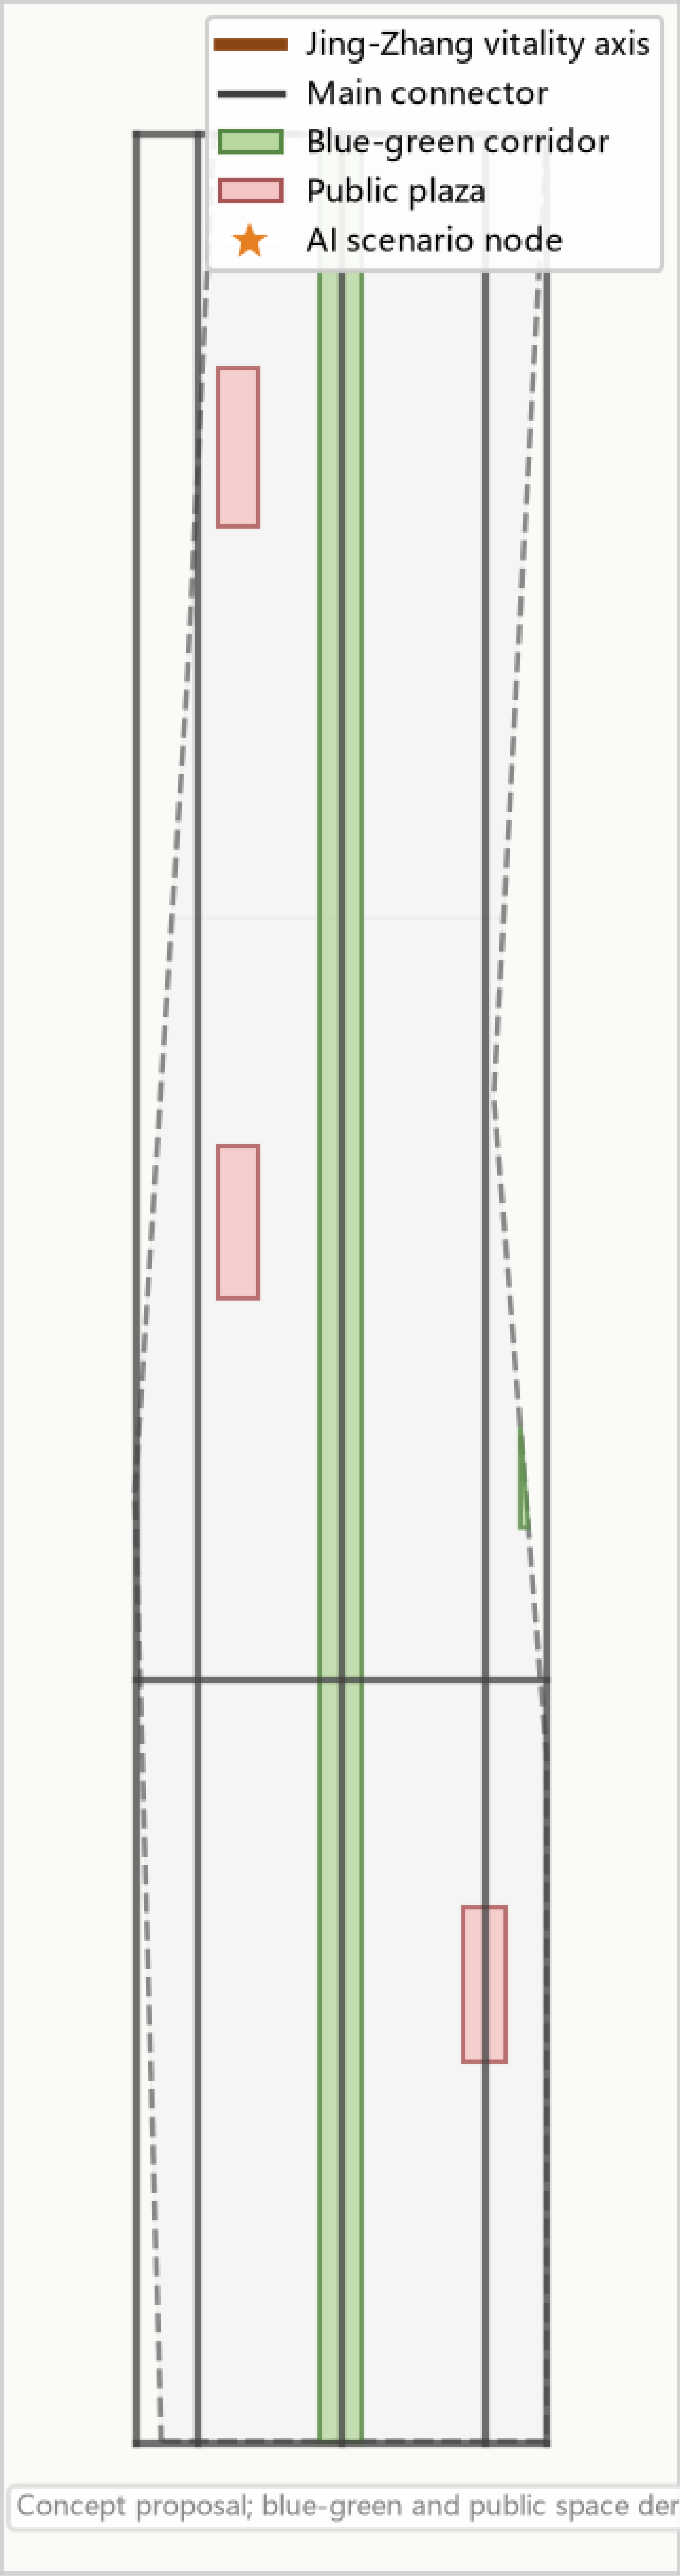

Land-Use Structure and Three-Areas-Two-Wings Layout

Six functional districts coordinated along the central belt axis

Mobility, Slow-Walk, and Blue-Green Public Space System

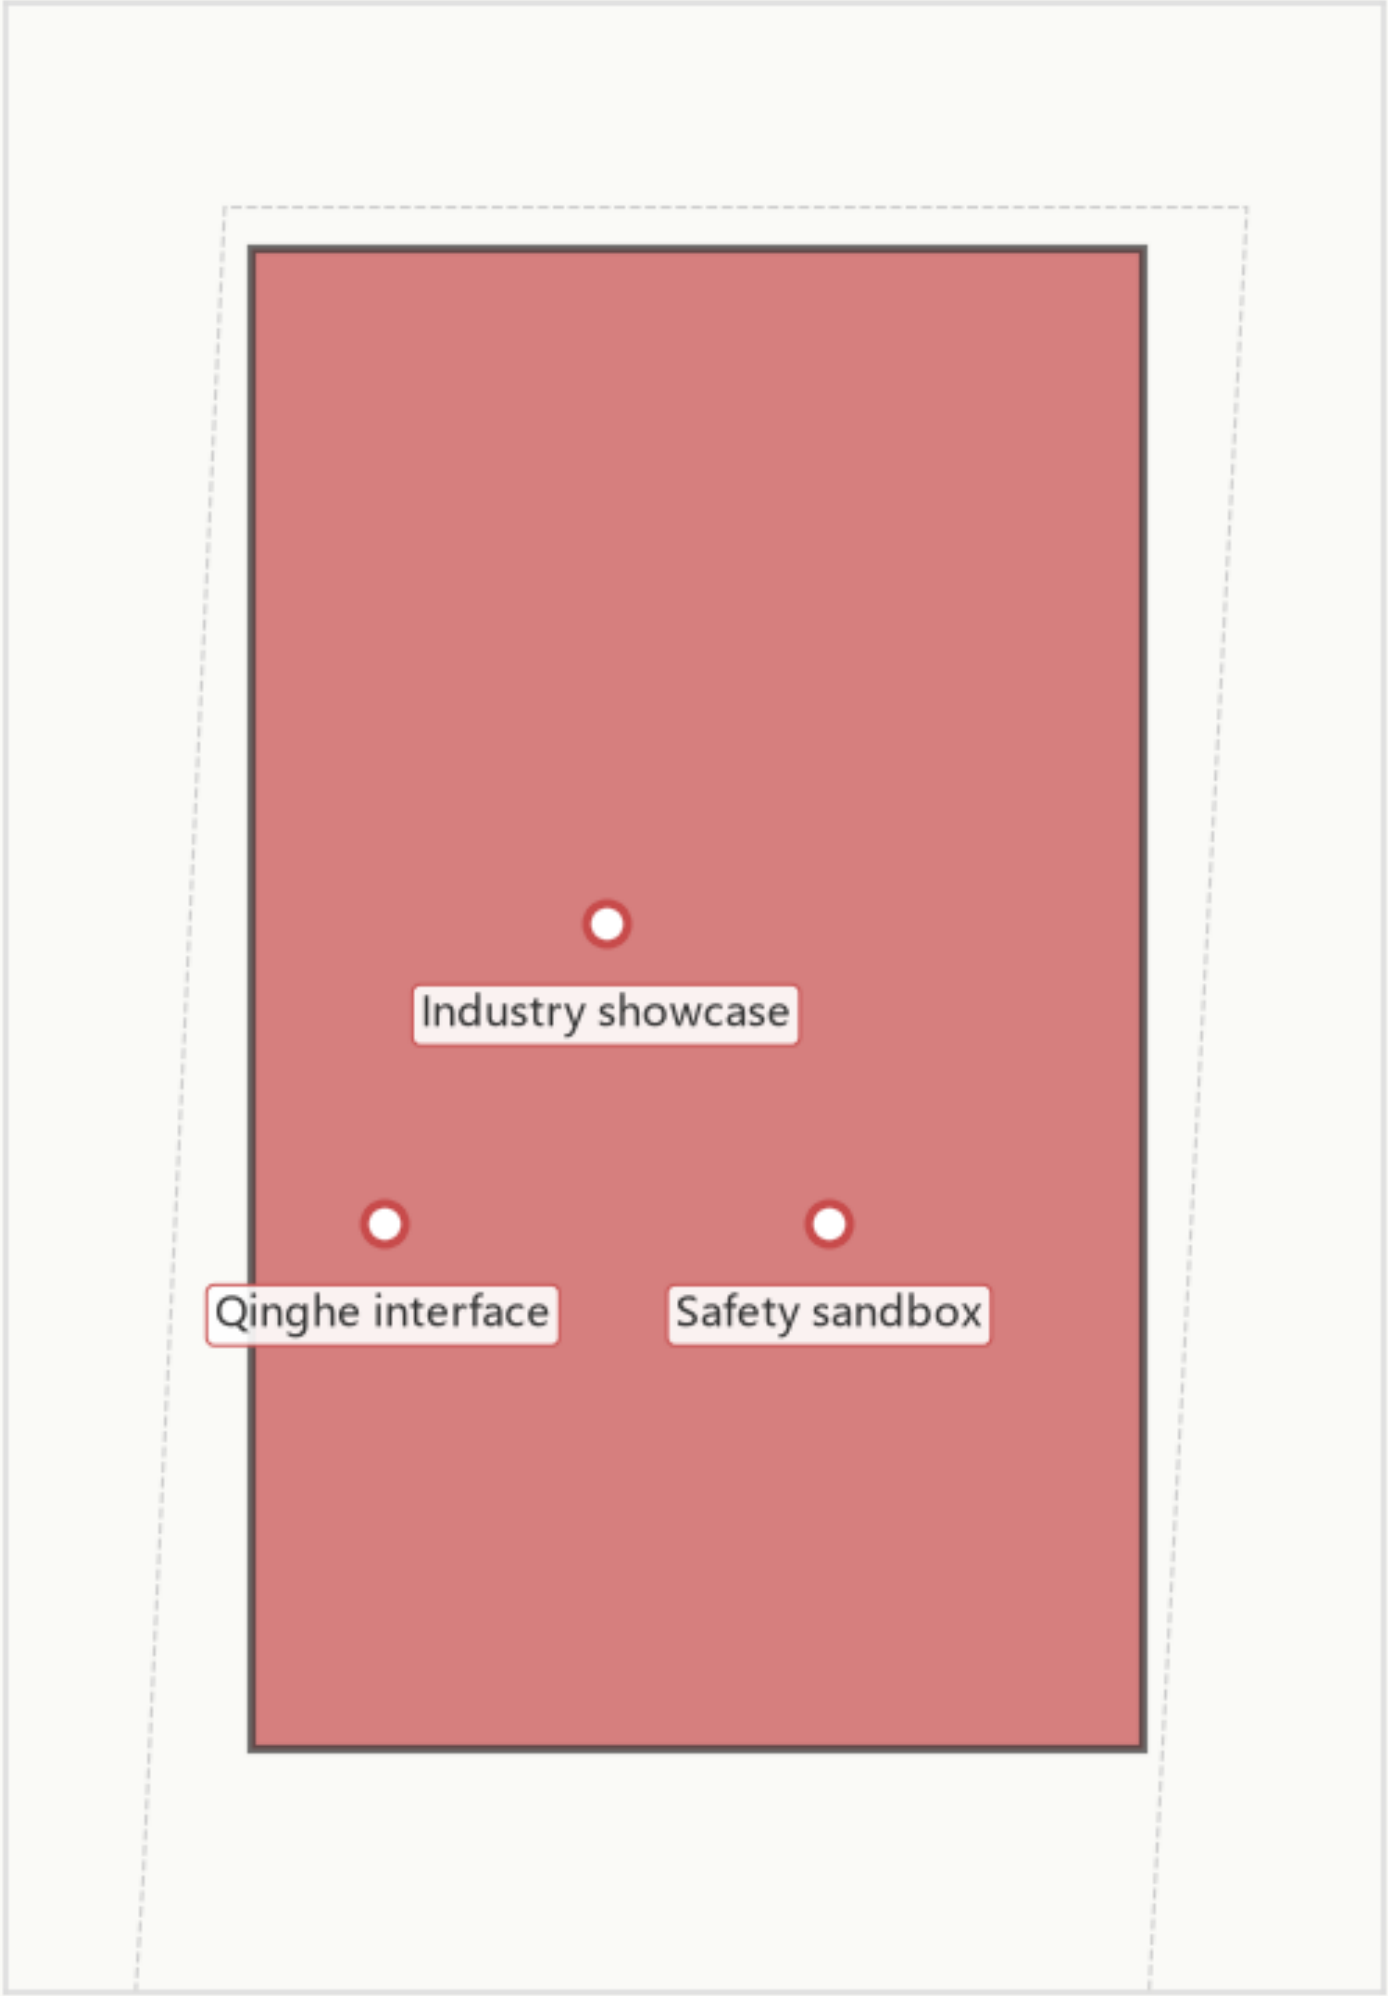

Six connectors + Jing-Zhang axis + 3 blue-green corridors + 3 public plazas

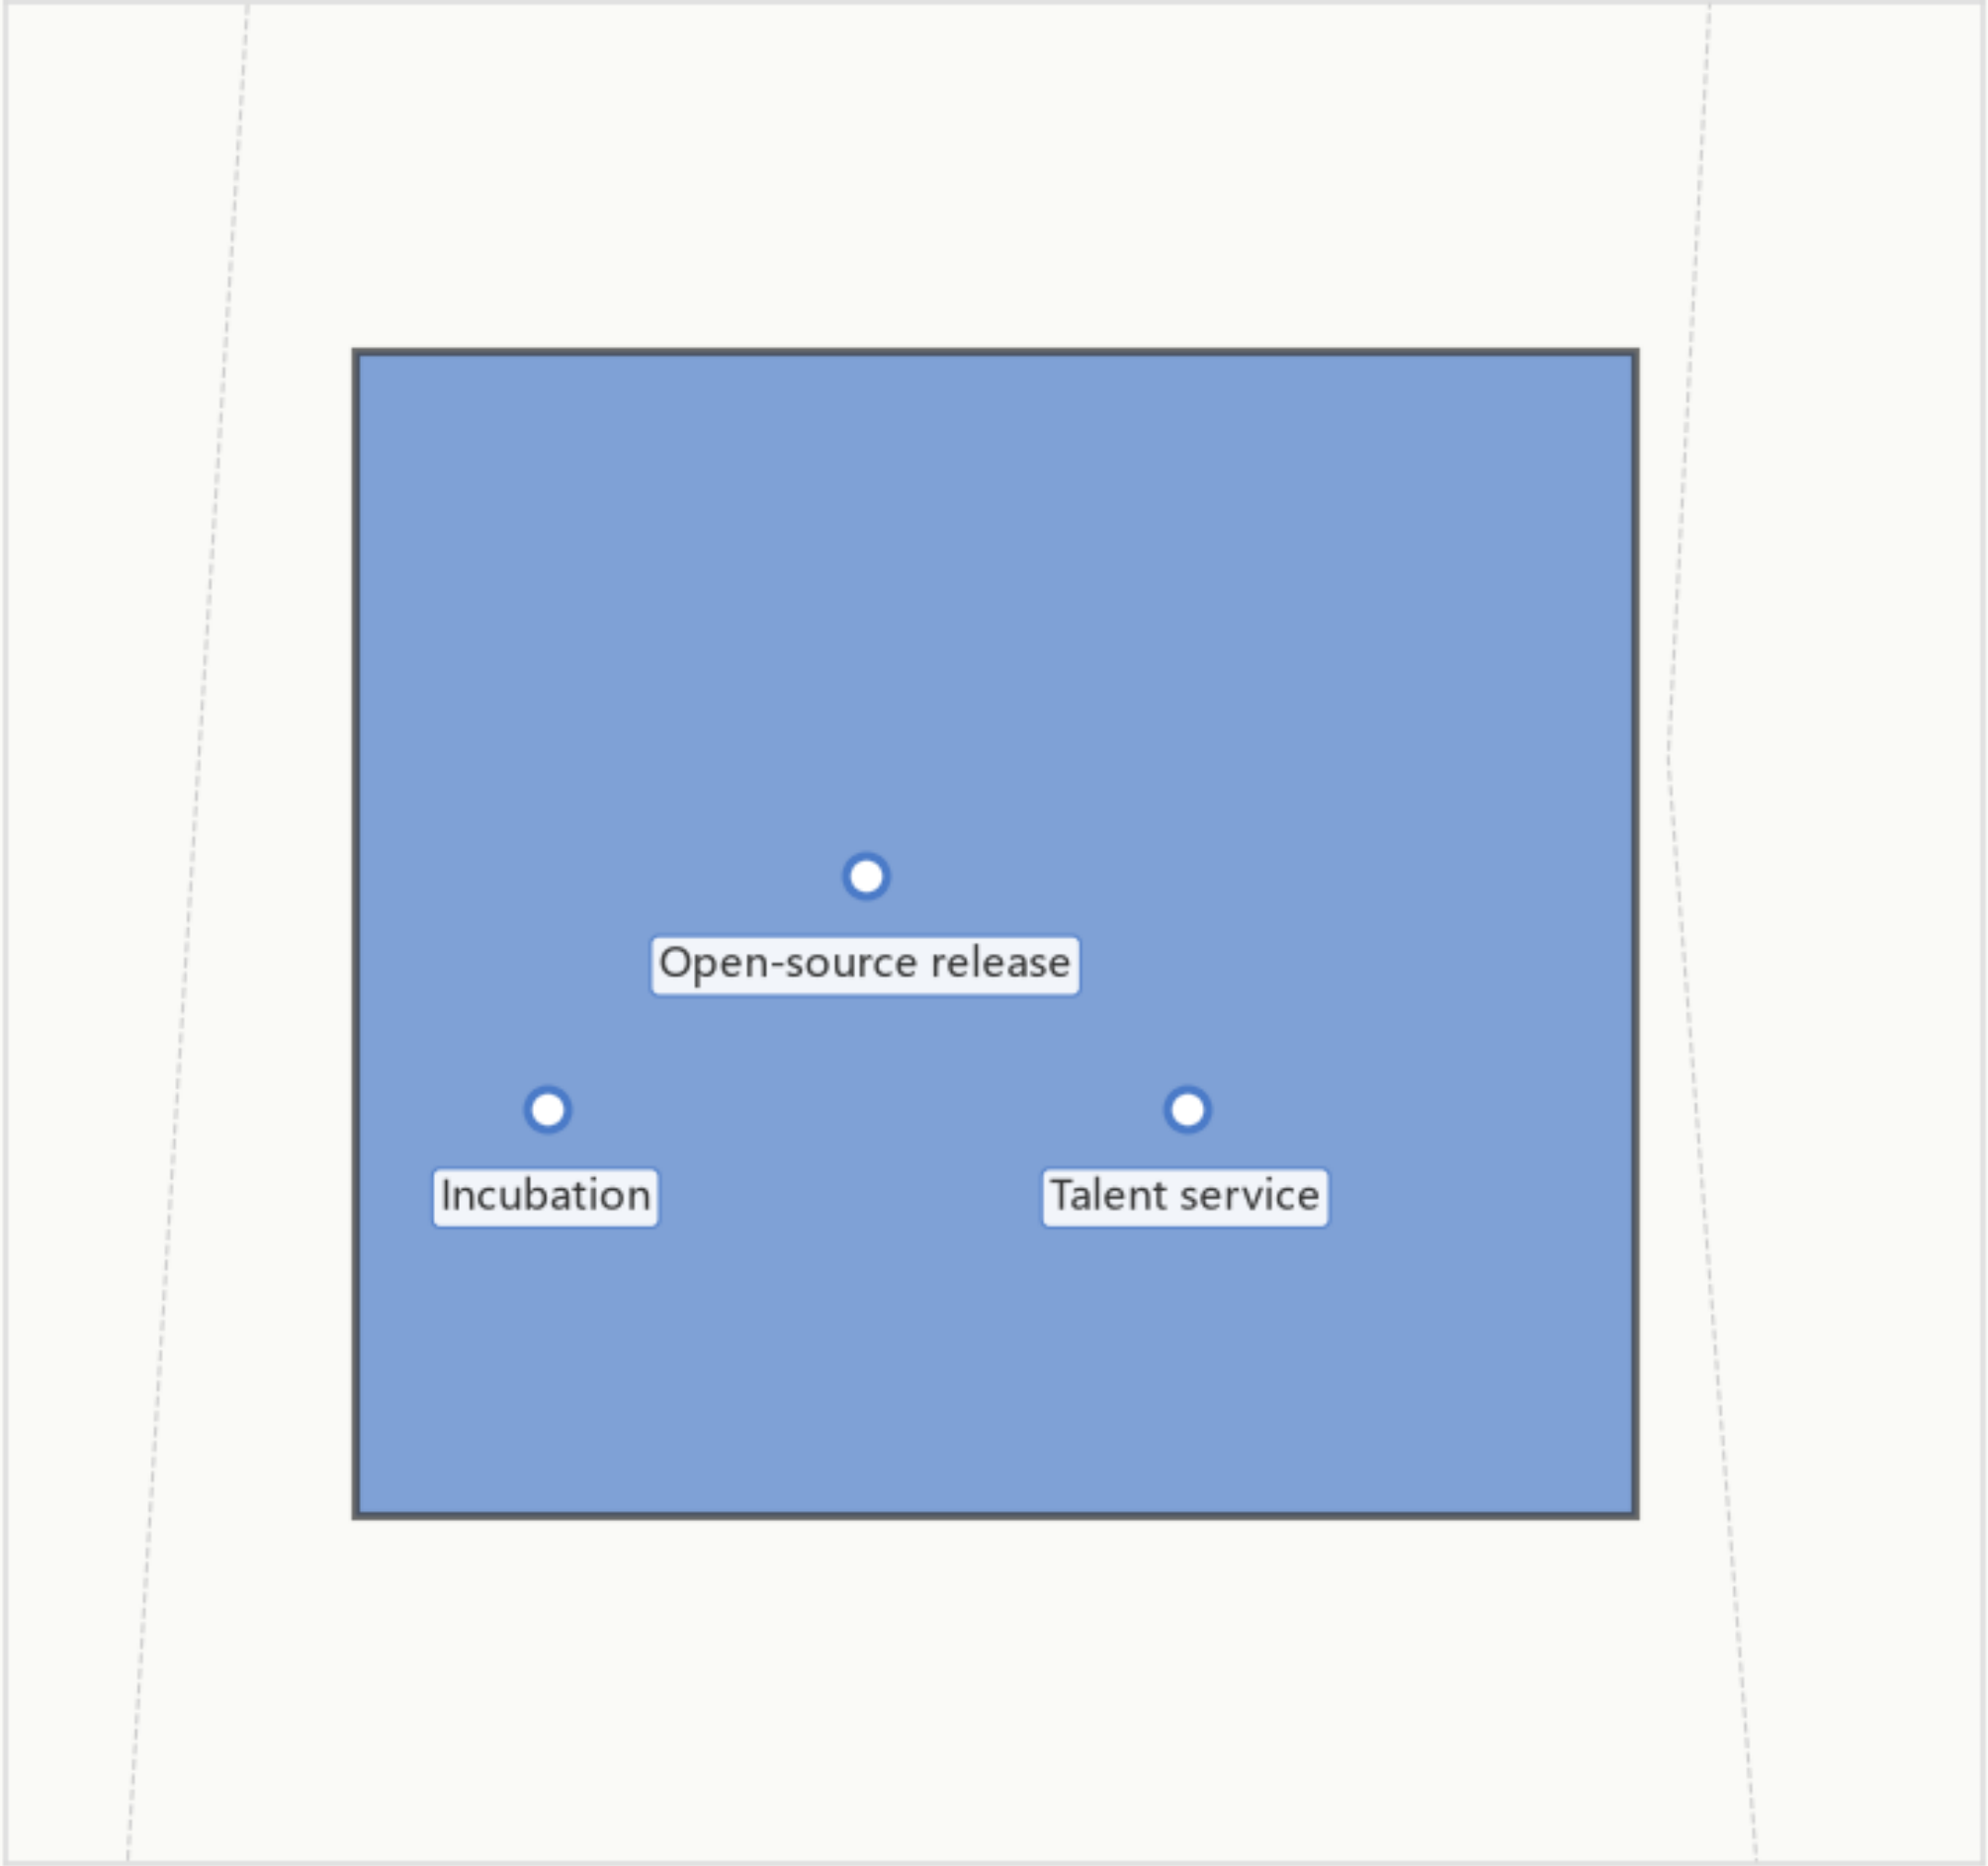

Zhongzhiyuan (192.1 ha) · AI Origin Community (104.3 ha) · Dazhongsi (72.0 ha)

Three Key Areas Detailed Design Index

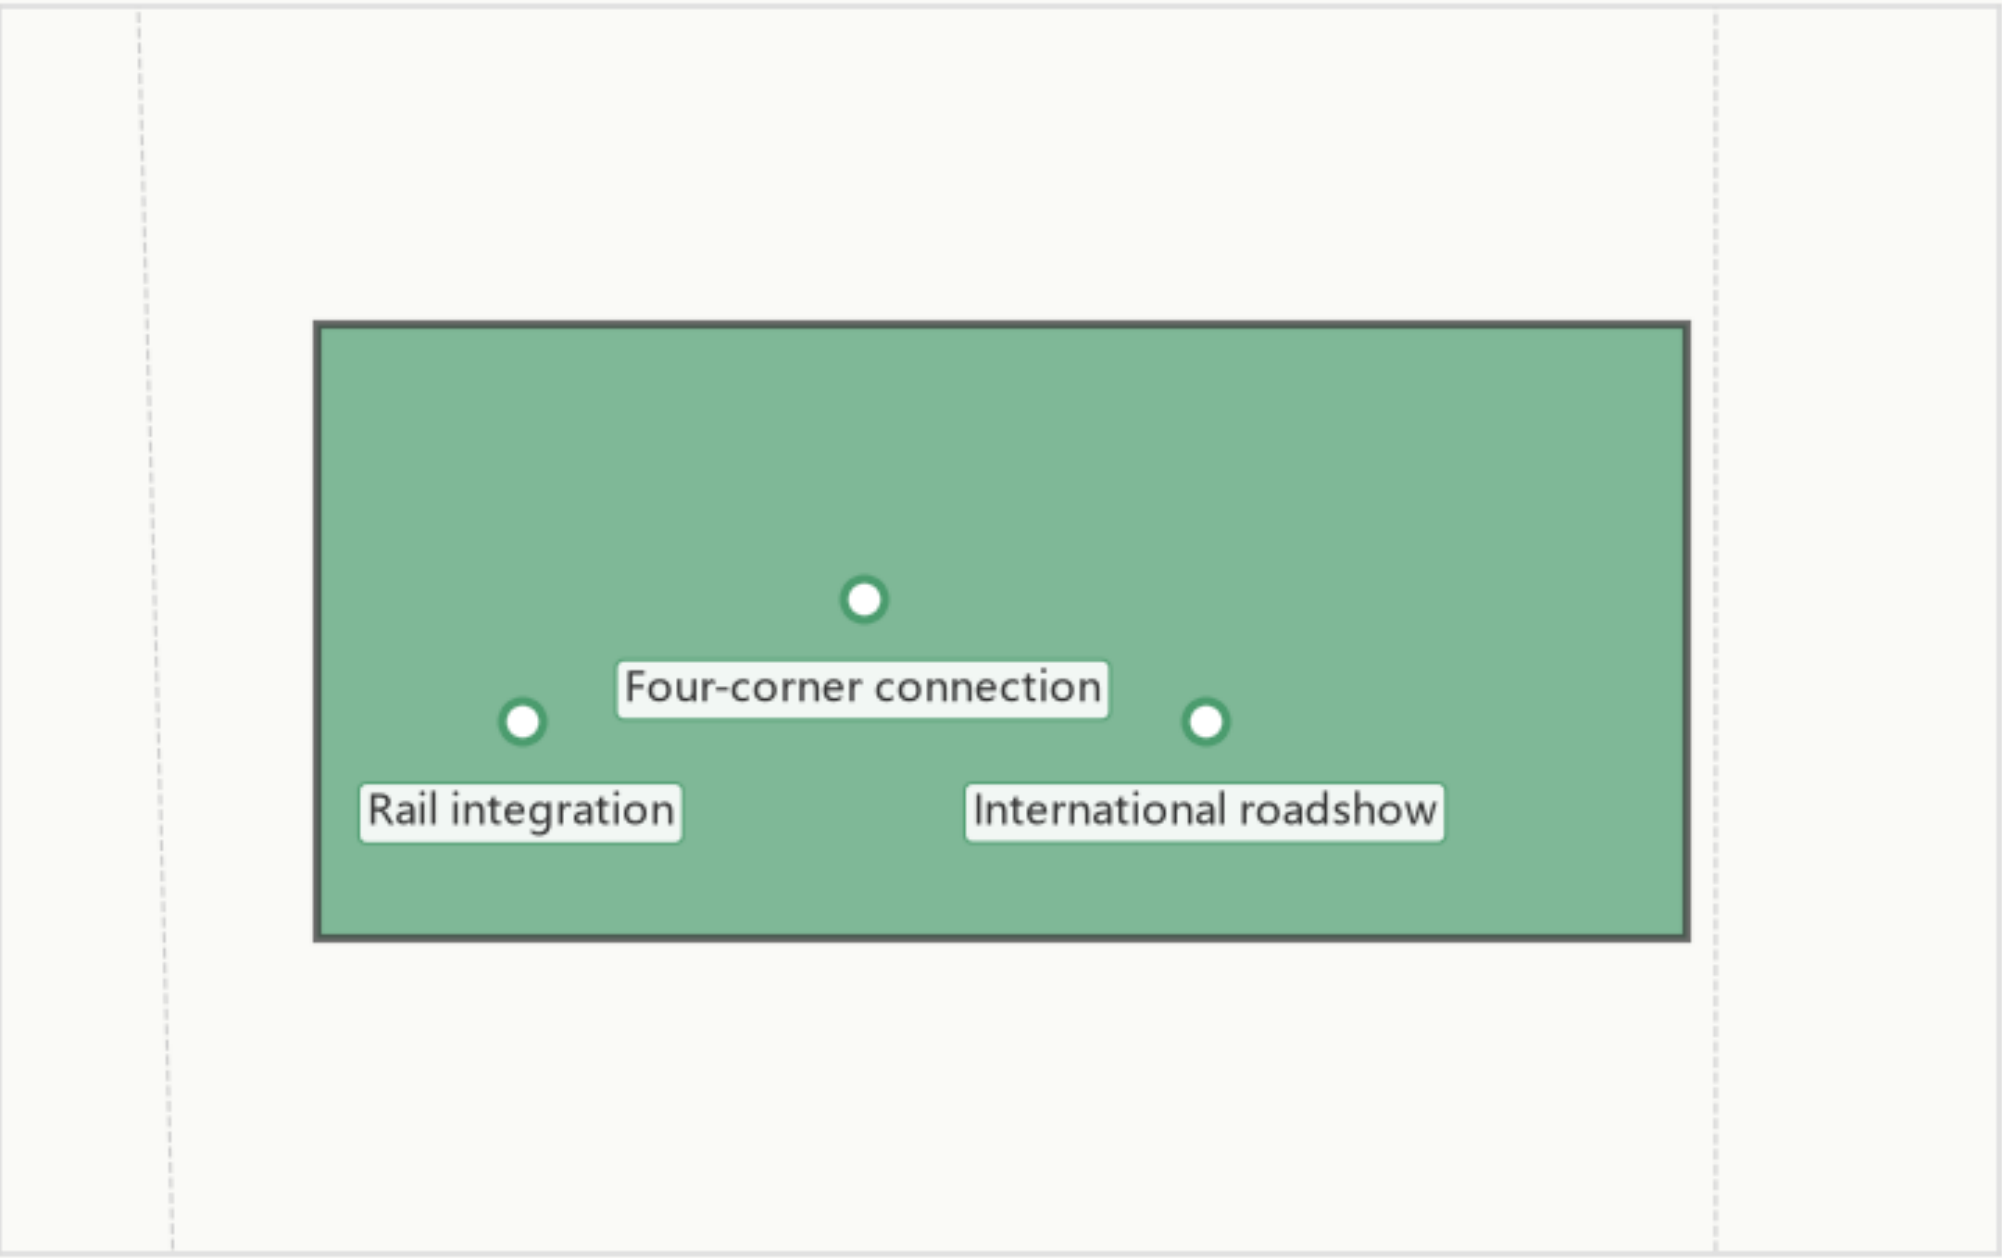

Zhongzhiyuan Acceleration Area
Garden-style full-stack innovation district
~192.1 ha (provisional)

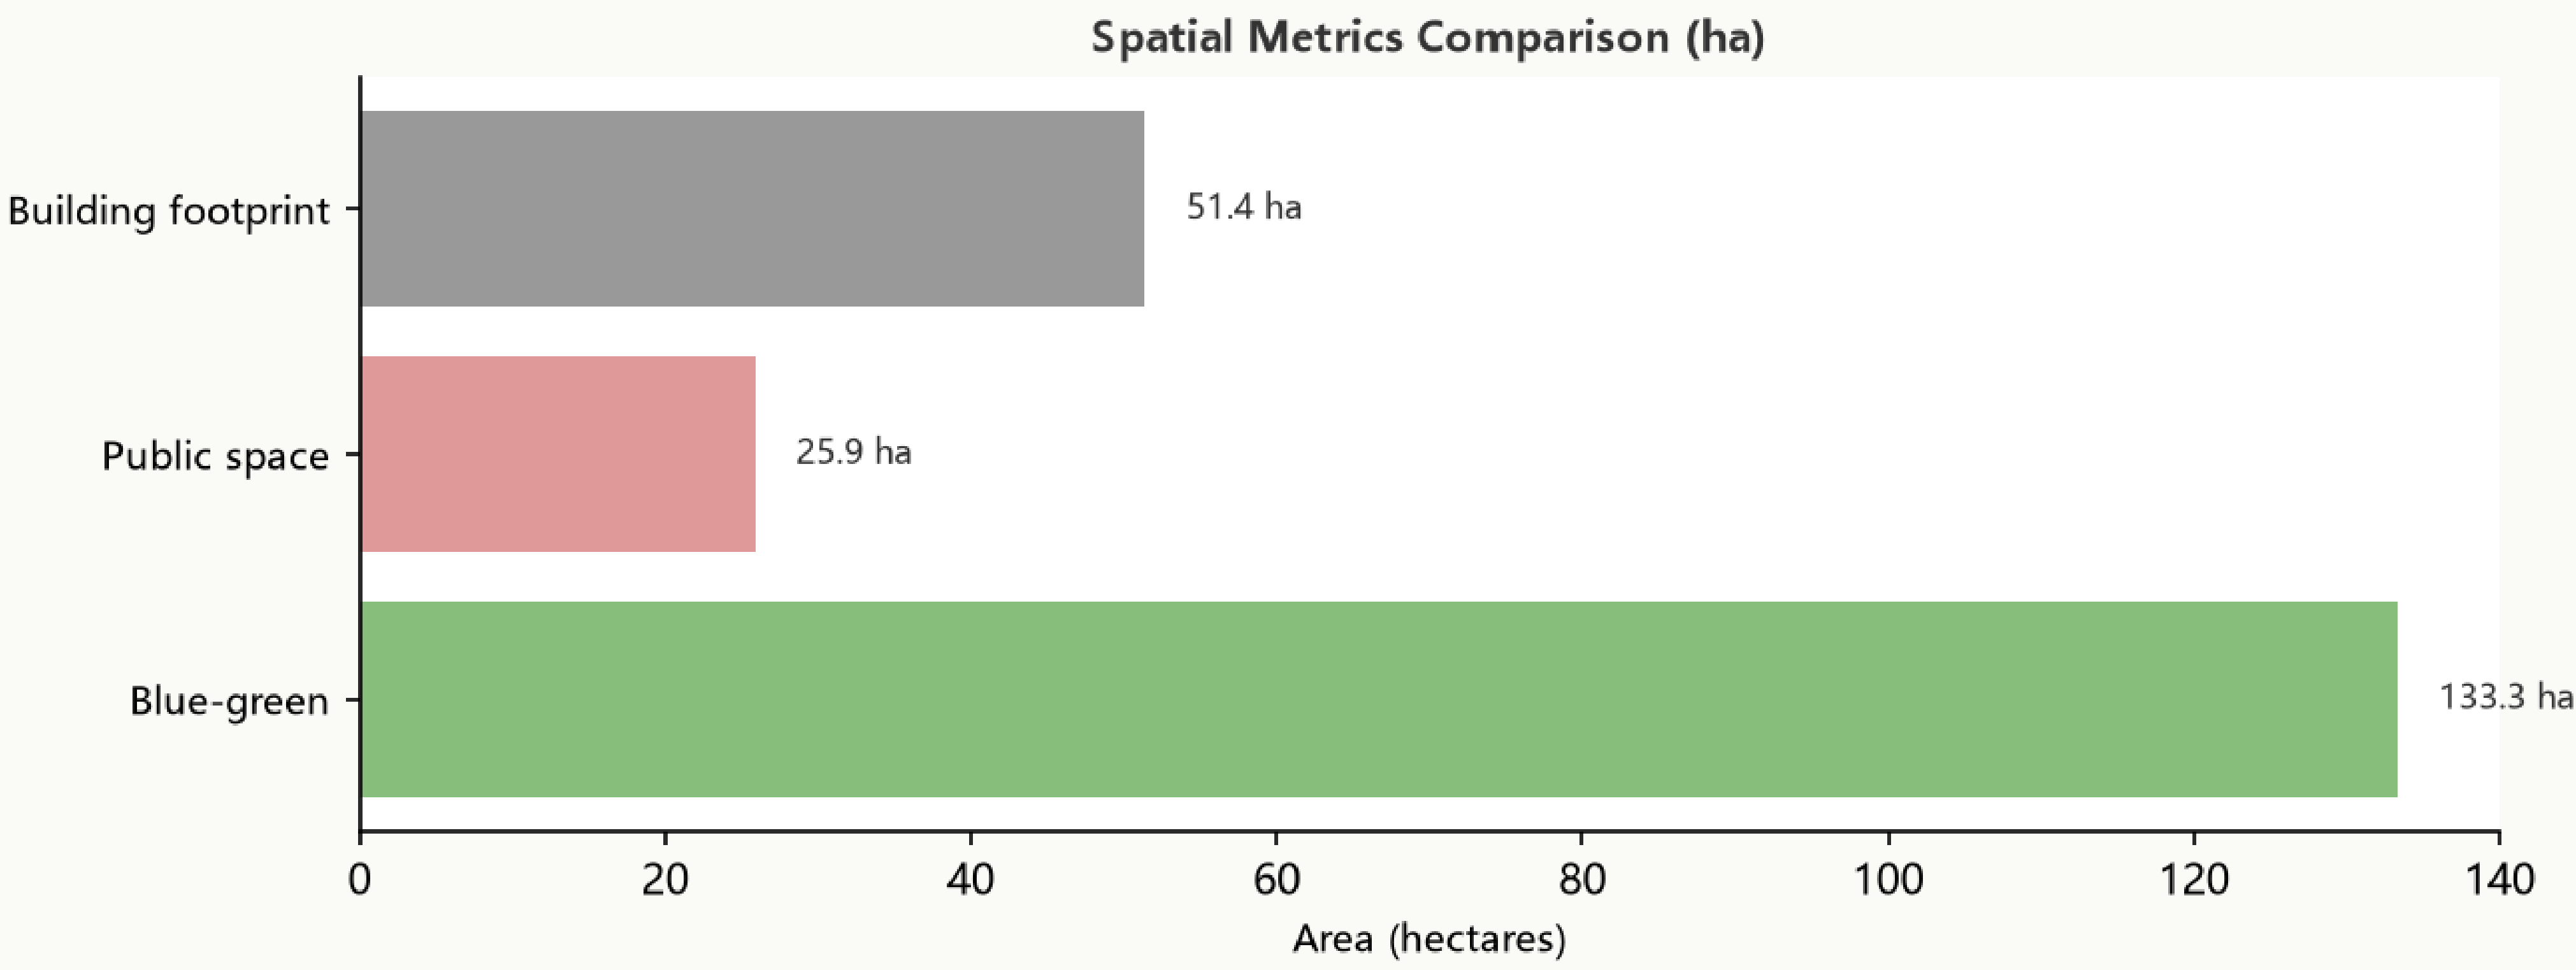

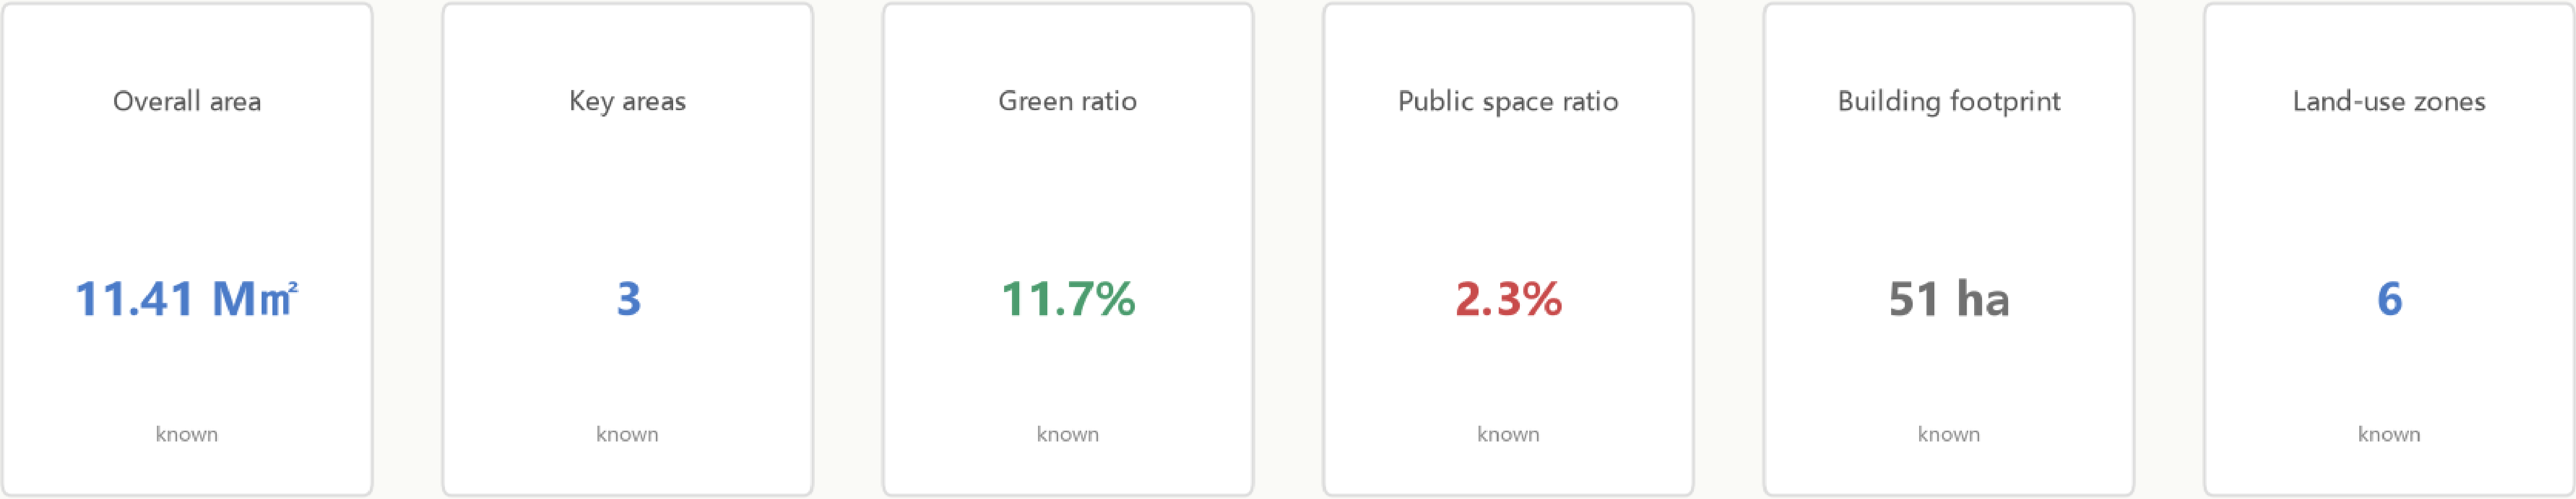

Beijing AI Origin Community
Campus-adjacent incubation & talent community
~104.3 ha (provisional)

Dazhongsi Industry Cluster
Urban smart economy & international exchange district
~72.0 ha (provisional)

Core Metrics Recalculation and Evidence Chain

Pending metrics

- floor_area_ratio
Depends on unpublished official regulato...
- building_height_control_m
Depends on unpublished official regulato...

Metrics use EPSG:4548 projection; provisional-boundary metrics flagged for recalculation when official polygon is released
