

JingZhang AI Spine

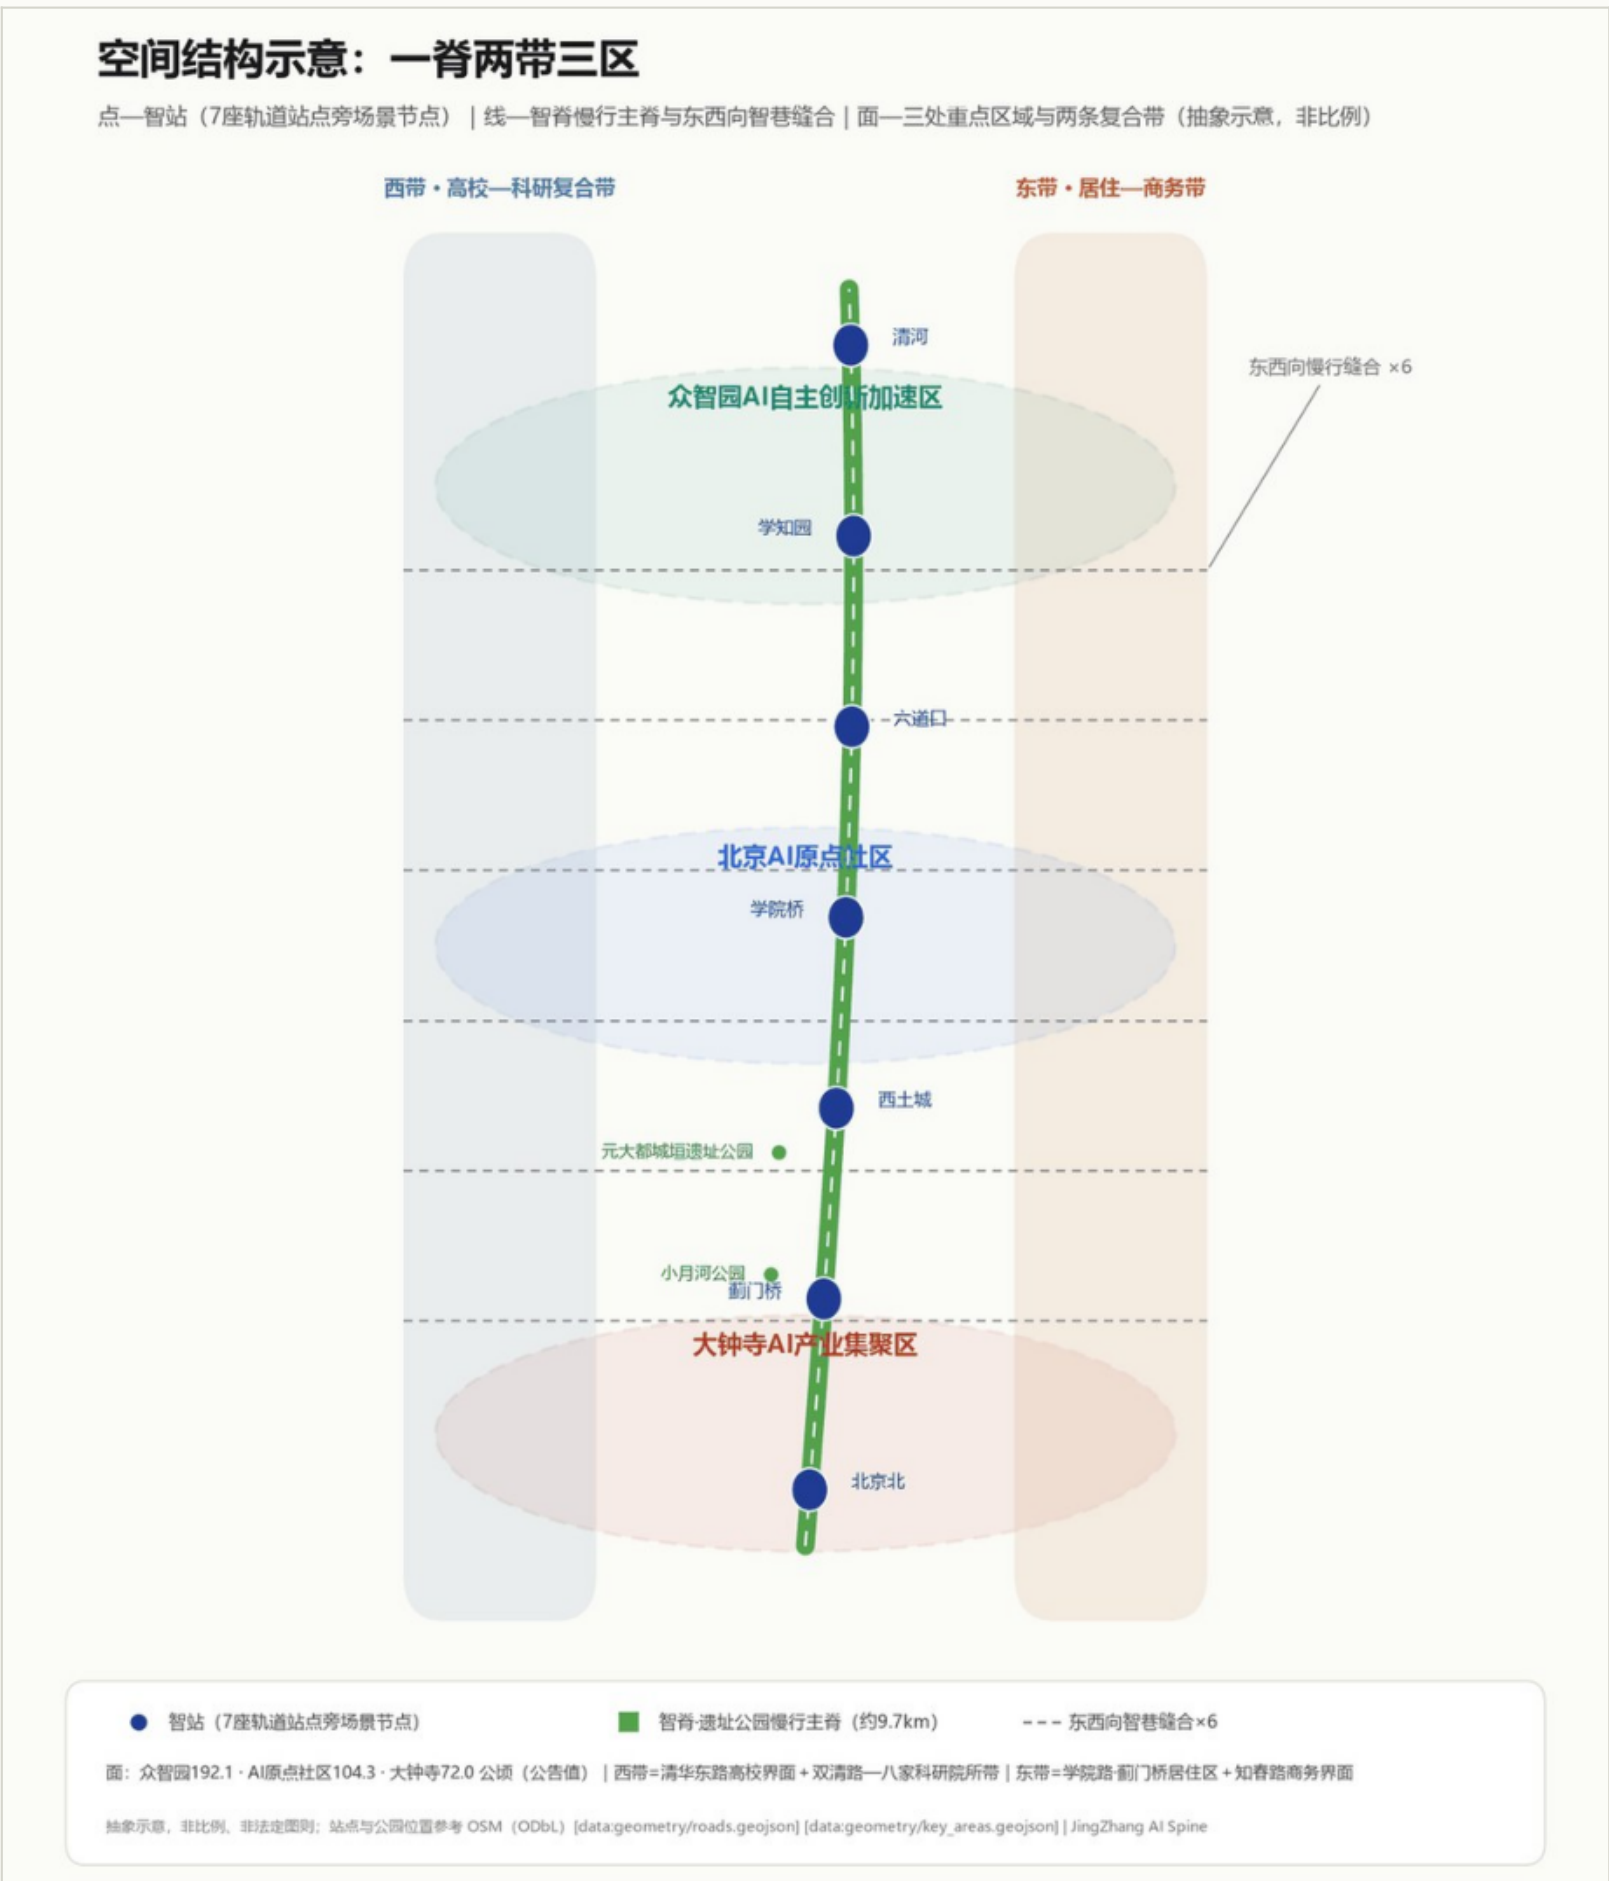

Centennial Jing-Zhang AI Innovation Belt open call · urban design concept proposal (A0 board)

Concept only · provisional boundary PROV-SITE-001 · metrics recomputed in EPSG:4548 · v0.2.8 · 2026-08-31

Overall bird's-eye view - concept art (not a site photo)

Spatial structure: one spine, two belts, three districts

Three key areas (concept renderings)

Dazhongsi AI Industry Cluster 72.0 ha

Beijing AI Origin Community 104.3 ha

Zhongzhiyuan AI Acceleration Area 192.1 ha

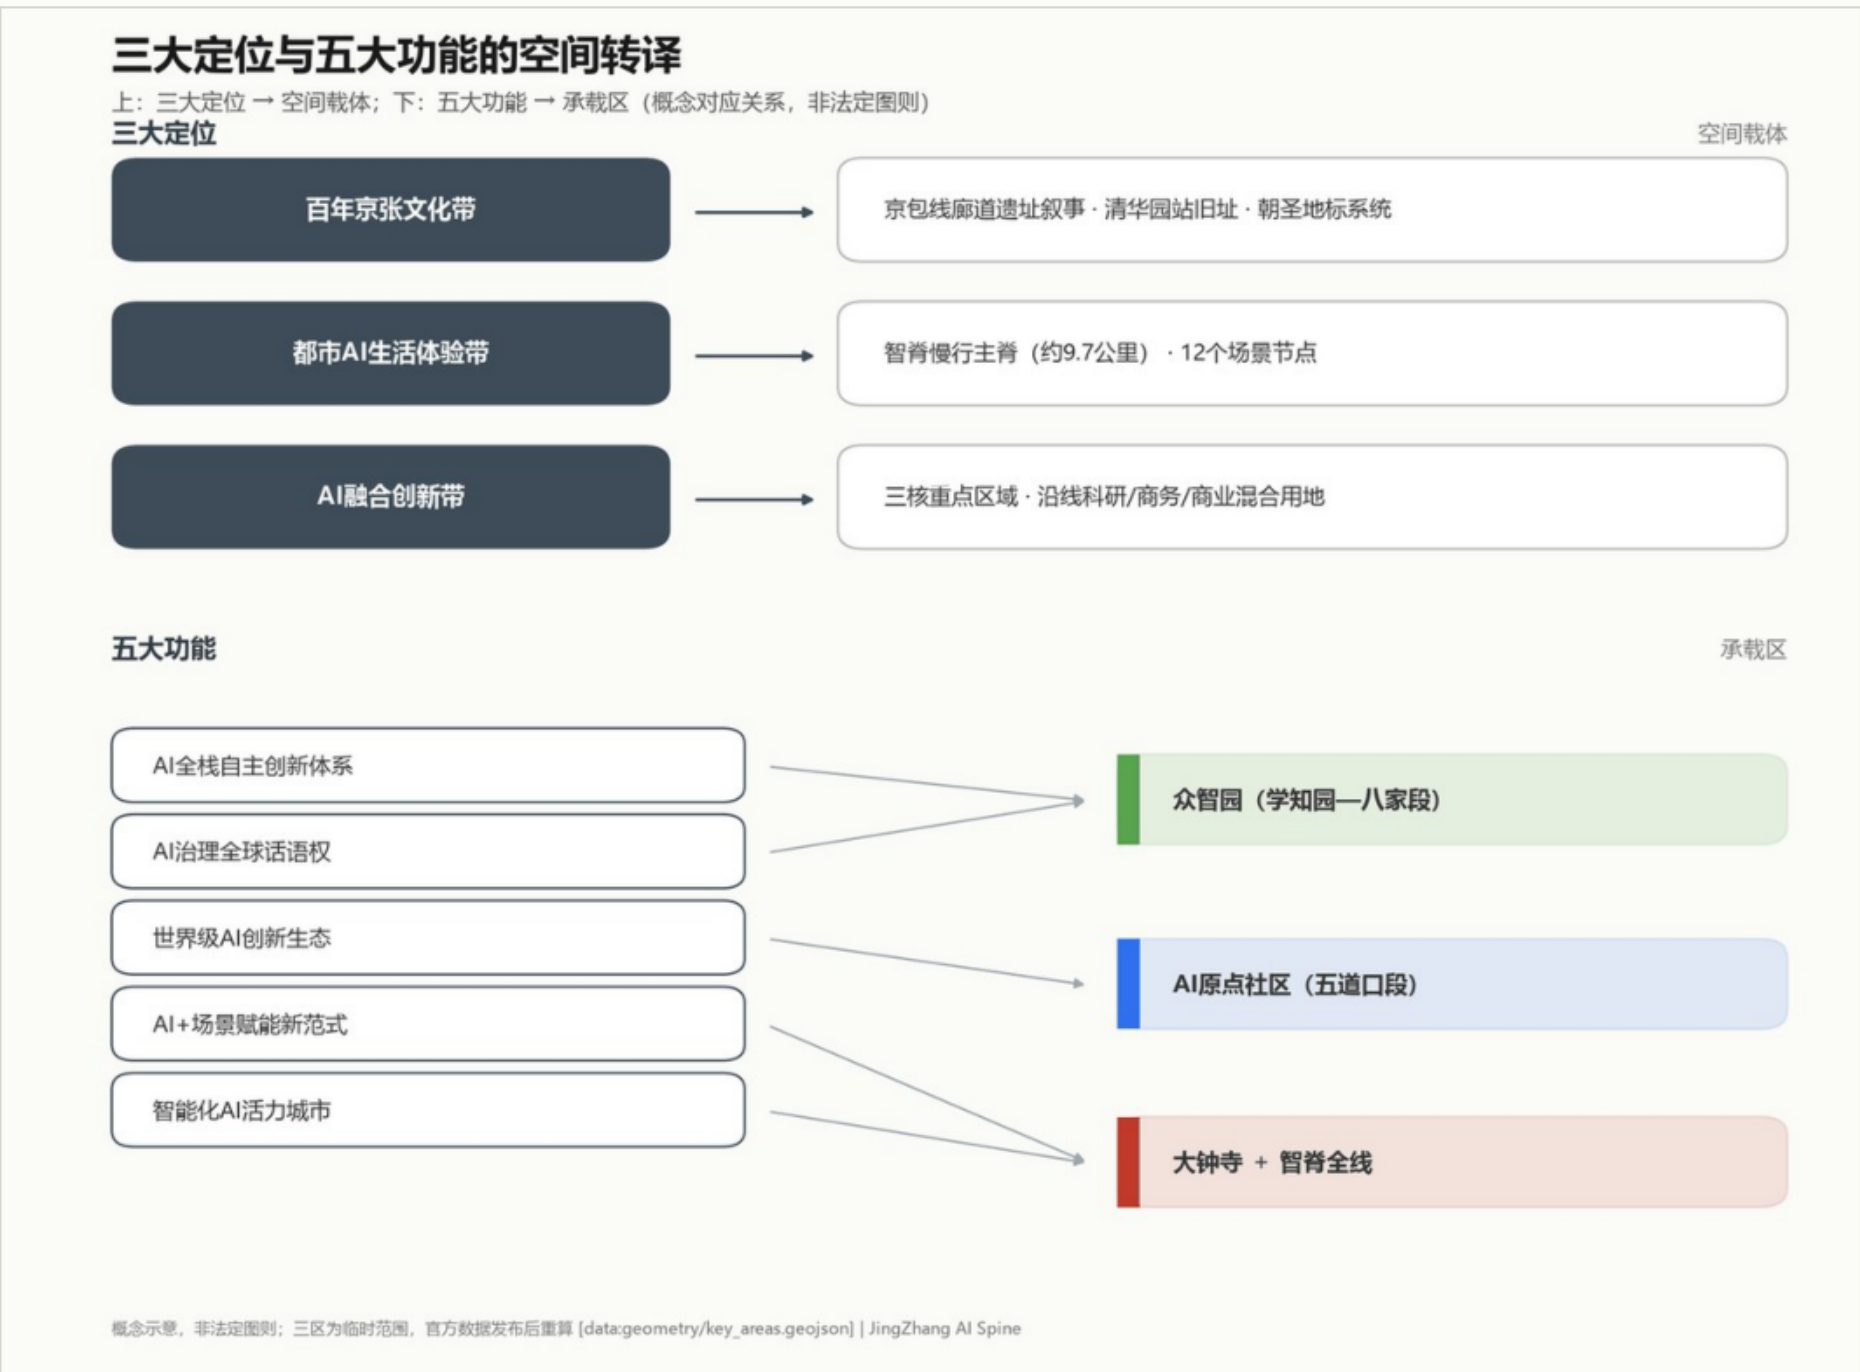

Translate the historic Jing-Bao corridor into an intelligent spine: a 9.7 km heritage-park slow corridor linking seven rail stations and the three key areas of Zhongzhiyuan, the AI Origin Community and Dazhongsi, so heritage, ecology, industry and AI scenarios grow on the real urban fabric.

Naming: Spine (the belt) · Cores (key areas) · Stations (7-station nodes) · Lanes (community slow lanes)

Site area	Green ratio	Public space	Rail stations	Concept GFA
11.41 km ²	24.1%	3.6%	7	10.44M m ²

Three positionings & five functions → space

Culture belt—heritage narrative/landmarks · Experience belt—spine+12 nodes · Innovation belt—three cores+mixed use
Full-stack AI+governance voice—Zhongzhiyuan · World-class ecosystem—AI Origin Community · Scenarios+ vitality—Dazhongsi+full spine

Mobility × blue-green system

Stitch first: 9.7 km spine + six stitches · existing arterials 45.1 km
green 24.1% · public space 0.406 km² · six station squares

Character & public-space component library

Rail-profile seats · synapse lamp posts · open-source kiosks (reversible)
Landmarks 3+1: Spine Origin Marker · Honor Wall · Qinghe Bank Lookout

Twelve AI scenario cards (concept art • 1-2 Chinese figures each • no crowds)
