

Jingzhang AI Artery - from Rails to Neurons

Centennial Jingzhang AI Innovation Belt concept - A0 board (provisional boundaries, intake)

Overall design 1,141.3 ha (recalculated) · green ratio 27.4% · public-space ratio 7.0%

Jingzhang AI Artery — Location and Three-Level Scopes

Centennial Jingzhang AI Innovation Belt open-call concept · one spine, three key areas, two wings

Three-level scopes

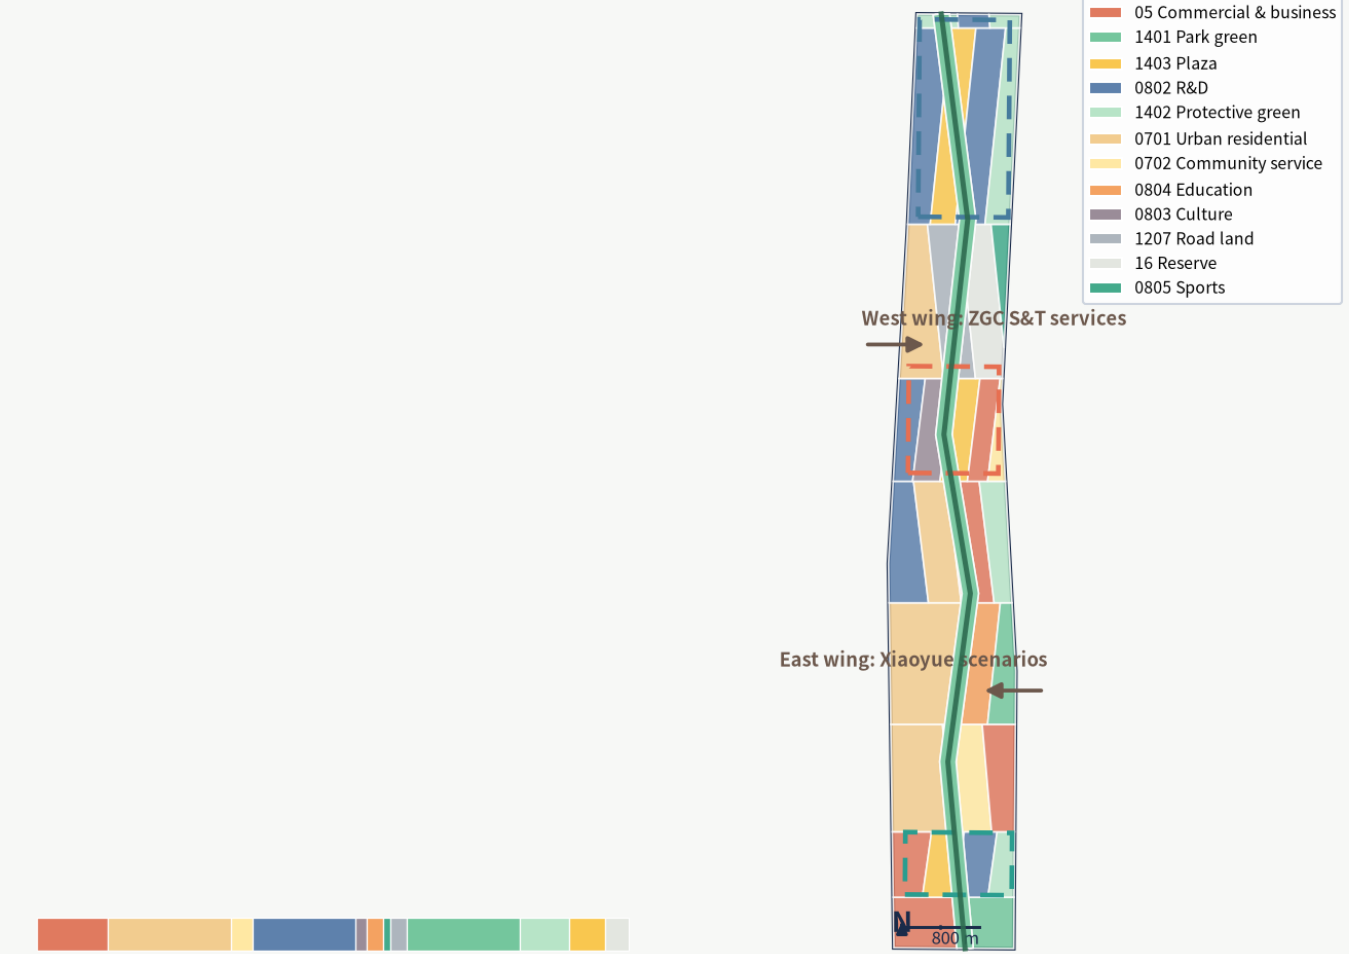

Coordinated research area
43.6 km² (announced)
Overall design area
11.4 km² announced / 11.41 km² recomputed
Key detailed design areas
368.4 ha announced / 369.3 ha recomputed

Boundaries: grey = coordinated research area (approximate); dark outline = overall design area (provisional_rough, not an official redline); key areas are provisional polygons, and not official boundaries.

京张智能产业走廊 · TRAE GLM Urban Design Agent · 2026

Land-Use Layout and Structure: One Spine, Three Areas, Two Wings

33 concept cells fill the provisional boundary exactly: R&D 197 ha, housing 238 ha, commerce 136 ha, green 212 ha.

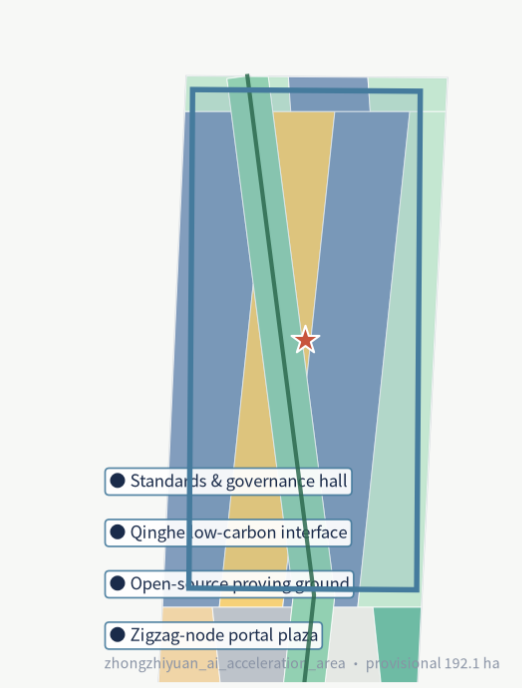

Structure: the heritage park spine runs north-south; three dashed key areas anchor innovation; west wing = ZDC services, east wing = Xiaoyue scenarios. Codes follow the WHU 标准用地代码 Jiaoping AI Artery AI/1985 标准用地代码 Jiaoping AI Artery · 2025

Detailed Design Intent of the Three Key Areas

North to south: Zhongzhiyuan (192.1 ha) · Origin Community (104.3 ha) · Dazhongsi (72.0 ha); stars mark AI pilgrimage landmarks (conceptual)

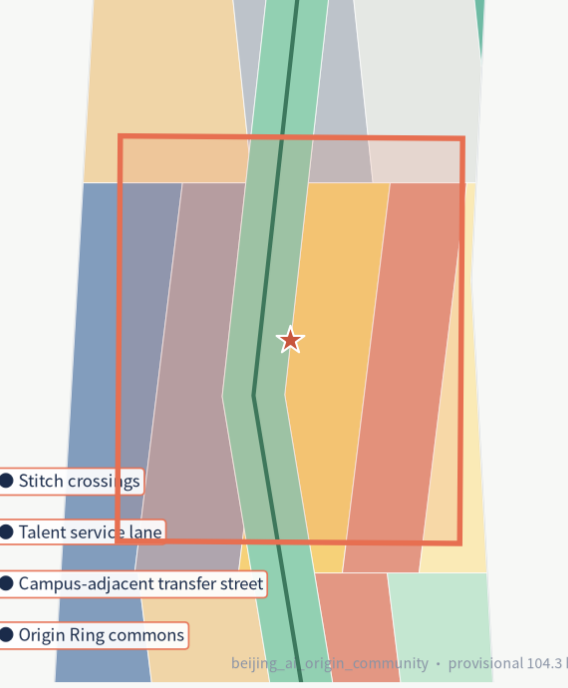

Zhongzhiyuan: full-stack self-reliance accelerator

Full-stack autonomy, safety governance, garden campus

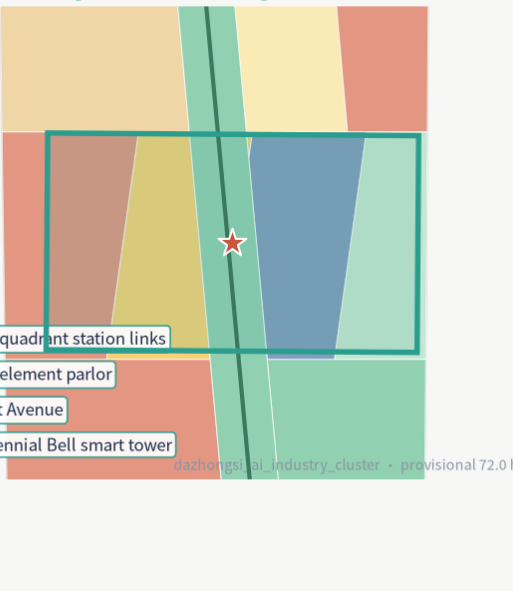

Beijing AI Origin Community

Campus-adjacent incubation, open-source co-creation, 24h community

Dazhongsi AI Industry Cluster

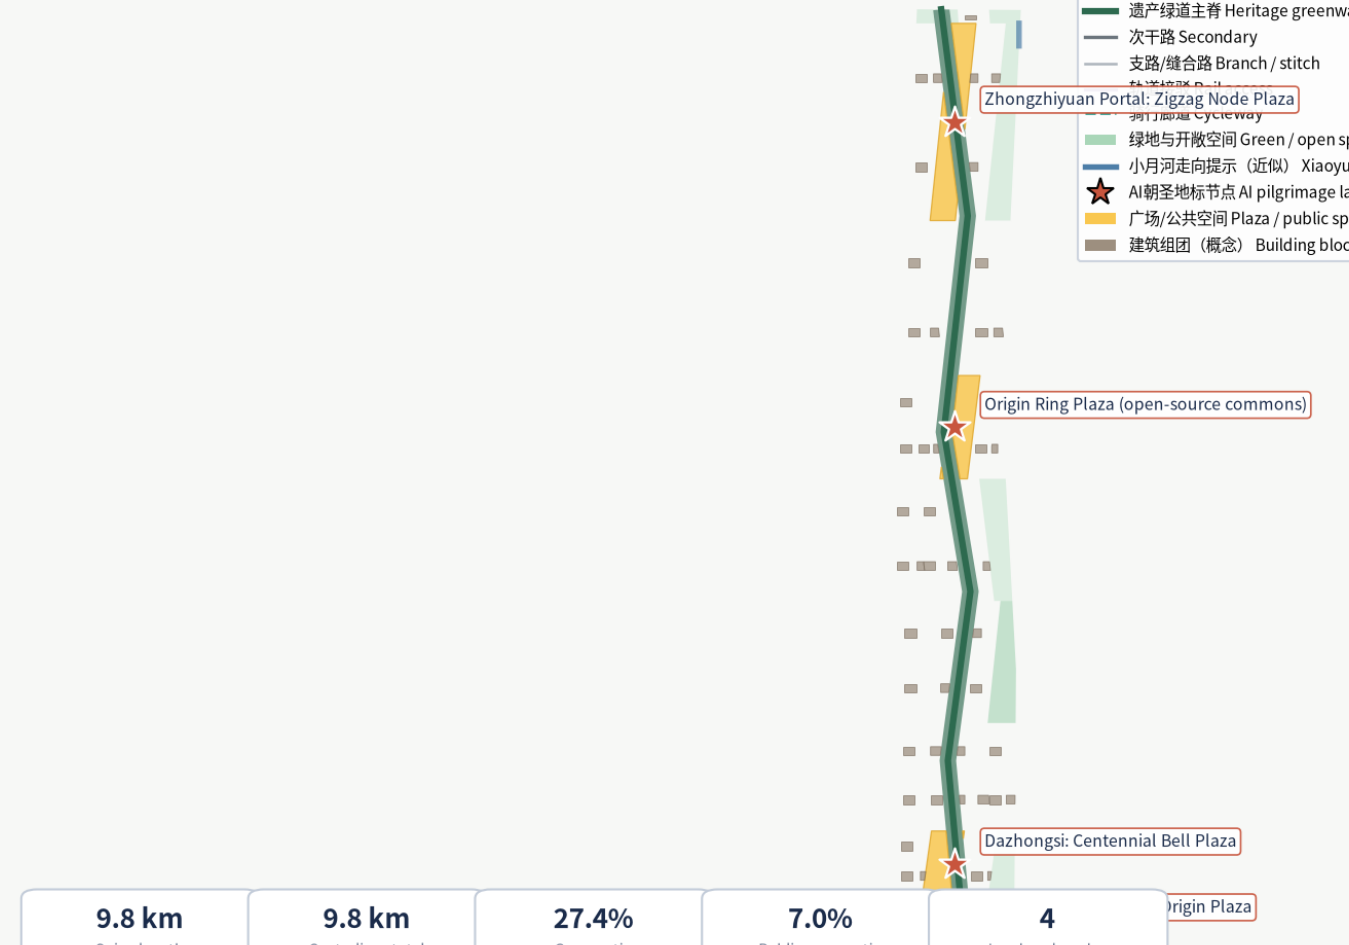

Agent-native commerce, global roadshows

Key areas boundaries are provisional; rough polygons announced; some pending. Landforms and design intent are conceptual suggestions; not engineering, planning, or approval controls. Jingzhang AI Artery · TRAE GLM Urban Design Agent · 2026

Mobility, Slow Network, and Blue-Green Public Space System

One-spine two-wing slow network + rail access + blue-green system + AI landmark nodes (all conceptual)

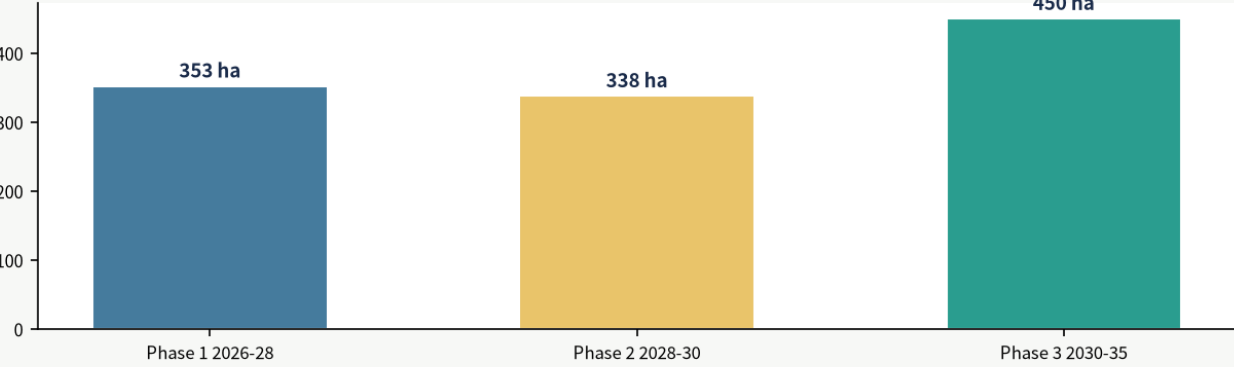

Roads and water are approximations inferred from public road names and the provisional boundary (low confidence); rail alignments, or blue-line considerations. 京张智能 · Jingzhang AI Artery · TRAE GLM Urban Design Agent · 2026

Core Metrics Recomputation and Evidence Chain

All metrics recomputed from submitted geometry in EPSG:4546; missing official controls disclosed as pending

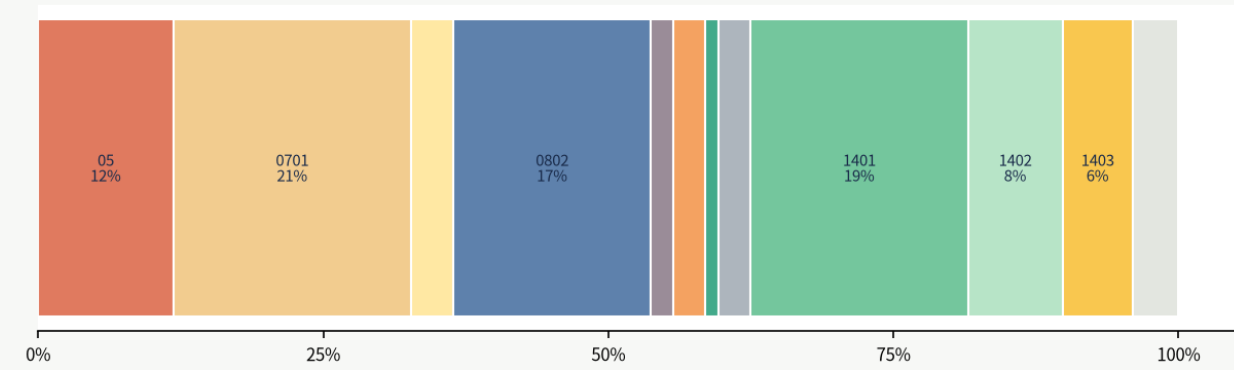

Phasing areas recomputed (ha, indicative timing)

0 %

Public-space ratio

Land-use structure (share of provisional boundary)

Evidence chain

- metric · join
- three metrics
- figures / HTML / PDF
- 4-gate self-check

Provisional boundary warning: areas and ratios are recomputed from the provisional, rough boundary (low confidence); final height/clearance remains unknown pending official verification. Jingzhang AI Artery · TRAE GLM Urban Design Agent · 2026
